Selected Projects

Sandor Kicks

- Developed an e-commerce shoe shop using React.
- Implemented features including product listings with filtering, search and guides, a shopping cart system with checkout, and responsive design for different devices.

Fitness App

- Built a cross-platform mobile application using React Native.
- Integrated a third-party API to fetch exercise data.
- Used Redux for state management.
- Key features include a rich exercise browser, favorites system, and progress tracking.

Backend and DevOps

- Developed REST APIs using Node.js and Express, integrating MongoDB with Mongoose ODM for data modeling.
- Deployed containerized Django applications using Docker on AWS EC2, GCP Cloud Run with Cloud SQL, and Azure Kubernetes Service with a SQL database.

Work History

Night Auditor

Staybridge Suites, Lubbock, Texas

2021 – Present

- Conduct nightly audits and prepare daily financial reports.
- Manage front desk operations and provide customer service.
- Set up reservations to prevent scheduling and inventory conflicts.

Massage Therapist & Owner

Sandor Massage Studio, Solt, Hungary

2018 – 2021

- Operated and managed a successful massage salon.
- Provided therapeutic massages and customized treatment plans.
- Handled business operations, including scheduling, inventory, and client relations.
